•Manufacturing

•Software development

•Erection and commissioning

•Maintenance and repairs

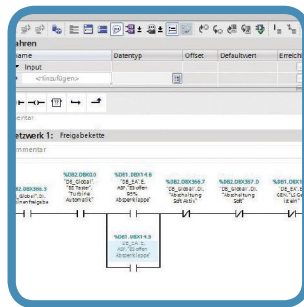

## Engineering

- Concept development
- Protection concept design
- Mechanical and electrical layout (A-CAD, EPLAN)
- Medium & low voltage equipment design

## Manufacturing

- Mechanical fabrication & assembly
  - Electrical wiring
- Testing & documentation

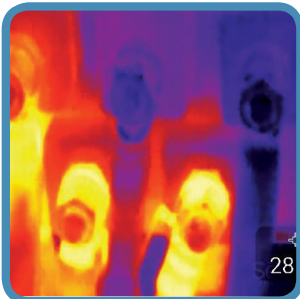

## Software development

- PLC programming
- HMI programming
- SCADA programming

## Erection and commissioning

- Full mount by our competent partners
  - Supervision
- Commissioning & training

## Maintenance and repairs

- Analysis & repairs
- Spare part deliveries
- Remote maintenance
